SUMMARY

Software Developer with over 4 years of experience in backend development, focused on C#, Python, and SQL databases. Experienced in building and maintaining scalable systems, with strong emphasis on performance, clean code, and software engineering best practices.

EDUCATION

Centro Universitário Adventista de São Paulo (UNASP)

Bachelor's Degree in Computer Science (Jul 2022 – Jun 2026)

PROFESSIONAL EXPERIENCE

The Catalyst Group | Intern - Client Accounting | Ago/2024 - Present

- Optimized the issuance time for new client onboarding documents by 87% (from 40 minutes to 5 minutes) by integrating systems and automating document generation;
- Accelerated new client registration time by 78% (from 1 minute 30 seconds to 20 seconds) by developing a Python-based system for extracting data from documents;
- Implemented automated pipelines for data processing, validation, and consolidation, increasing data reliability and reducing inconsistencies.

Giesecke+Devrient | Software Development Intern | Fev/2024 – Jun/2025

- Enabled the company's entry into new market segments by developing a C# software solution for on-demand SIM card personalization, eliminating complex industrial processes;
- Automated manual tasks and optimized team workflows by developing automation solutions and internal tools in Python and C#;
- Participated in code reviews and prepared technical documentation, contributing to standardization and continuous improvement of development quality.

COURSES & CERTIFICATIONS

- **.NET Developer** – Digital Innovation One (2026)
- **JavaScript Developer Program** - Digital Innovation One (2023)
- **Java Developer Program** - Digital Innovation One (2023)

PRACTICAL PROJECTS

Personal Portfolio – (<https://portfolio-me-alpha-drab.vercel.app/>)

- Developed a web portfolio to showcase projects, with a focus on performance and responsiveness (Next.js, TypeScript, REST API, Vercel).

Tic-Tac-Toe with Artificial Intelligence – (<https://tic-tac-toe-site-pxg.vercel.app/>)

- Developed a Tic-Tac-Toe game with AI using the Minimax algorithm, enabling matches against the computer with optimized decision-making (Python, React, TypeScript).

SKILLS

Backend: C#, Python, Java, Node.js, TypeScript, SQL (.NET, ASP.NET Core, Entity Framework)

Frontend: React, Next.js, JavaScript, HTML, CSS.

Tools: AWS, Azure, Git, GitHub, Postman, MySQL, PostgreSQL, SQL Server, Selenium.

Other: Power Automate, Power Apps, Dataverse, FastAPI, Express.js, NUnit, JUnit.

Languages: English (Advanced), Portuguese (Native).
